FARM & RANCH TOYS FOR KIDS

Little Buster Toys was founded in 2008, in Southwest Missouri, with the idea that kids want realistic farm toys. The founders of Little Buster Toys got busy designing the most realistic and durable toys in the marketplace that replicate the true agricultural lifestyle. These toys were created to allow the children to play with toys that represent a farming, ranching, and rodeo lifestyle. Little Buster Toys is known for our equipment made of heavy-duty steel construct as well as high quality plastic animals.

On May 31, 2017 Little Buster Toys came under the new ownership of Heath and Lisa Rickman. With the change of ownership, a commitment to maintain quality toys was made to our customers. Over the past three years, Little Buster Toys has had the amazing opportunity to continue to grow and include Livestock Show Toys for show cattle, pigs, lambs, and goats. In the summer of 2020, we purchased a stuffed animal company which has allowed us to expand to plush stock show toys, too! Our deep roots and love of the rodeo, ranch, and livestock show world has allowed us continue to create and deliver exciting new toys that our customers want and deserve.

Little Buster Toys strives to be a legacy item that can continue to pass from generation to generation!
